

The Society for Range Management Prairie Parkland Chapter &
Northern Great Plains Section present a workshop on:

Ecological Goods and Services from Native Rangelands

Rm 2E25, 2nd Floor of Agric. Building, 52 Campus Drive, Univ. of Sask.

Thursday, Dec. 5th

9 a.m. to 4 p.m.

- **What are native prairie grasslands worth? Why it pays to conserve this endangered ecosystem**
Chris Nykoluk & Sue Michalsky, Ranchers Stewardship Alliance
- **Carbon sequestration as an ecological good and service**
Edward Bork, University of Alberta
- **Effects of warming, precipitation and grazing on the provision of forage by Western Canadian grasslands**
Cameron Carlyle, University of Alberta
- **Geographic-based assessment of rangeland ecosystem services, forage production and carbon storage, influenced by grazing management**
Shannon White, Alberta Biodiversity Monitoring Institute
- **Rangeland health assessment: a useful tool for linking range management and prairie biodiversity?**
Allison Henderson, University of Saskatchewan
- **Tools and approaches for administering environmental stewardship incentives: a framework for finding the right fit**
Robin Bloom, Environment Canada

The event is free of charge and pre-registration is not required.

Show up early, limited seating. Lunch will not be provided.
