

Saskatchewan

**Prairie Conservation
Action Plan**

2012 Update

Introduction

The Saskatchewan Prairie Conservation Action Plan (SK PCAP) Partnership brings together agencies and organizations representing producers, industry, provincial and federal governments, non-government organizations and research and educational institutions. Together, the Partners establish a five year Framework for collective action which acts as the context for annual work planning.

The 2009-2013 Framework is built on the Partnership's Vision and three Goals:

Our Vision: Healthy native prairie ecosystems as vital parts of our vibrant and strong communities.

Our Ecosystem Goal: Native prairie ecosystem health and biodiversity are conserved and restored as part of a functioning landscape.

Our Economic Goal: Sustainable uses of native prairie improve the livelihoods of Saskatchewan people.

Our Cultural Goal: Native prairie is a valued part of our culture and identity as Saskatchewan people.

In the 2009-2013 Framework*, the Partnership also identifies five areas of strategic action to meet these Goals and work towards the Vision. These are:

- **At Home on the Prairie:** Connecting to Native Prairie
- **Prospering with Prairie:** Sustainable Land Use and Development
- **Caring for Prairie:** Managing Invasive Alien Plant Species
- **Accounting for Prairie:** Valuing Ecological Goods and Services
- **A Working Prairie:** Grazing Management in Prairie Ecosystems

This 2012 SK PCAP Update reports on the status of each of the focus group deliverables to be achieved within the given year as outlined in the 2012 SK PCAP Annual Workplan. Each deliverable indicates the status of the deliverable as **not started**, **in progress** (for projects that have a one year timeline), **ongoing** (for projects that span multiple years) or **completed** and provides an explanation.

* Please refer to the SK PCAP website at www.pcap-sk.org under *Action Plans* for a copy of the *2009-2013 Framework*.

Table of Contents

Focus Groups:

At Home on the Prairie: Connecting to Native Prairie	1
Prospering with Prairie: Sustainable Land Use and Development.....	4
Caring for Prairie: Managing Invasive Alien Plant Species	6
Accounting for Prairie: Valuing Ecological Goods and Services.....	9
A Working Prairie: Grazing Management in Prairie Ecosystems.....	11
Appendix 1: Core and Program Support	15

At Home on the Prairie

Connecting to Native Prairie

Objective 2009-2013

More people are aware of and appreciate native prairie ecosystems and support and are engaged in sustainable, prairie related activities.

Measuring success 2009-2013

- Comparison of knowledge, attitudes and behaviours in people who have participated in prairie education programs vs. those who have not
- Target-group appreciation of prairie and support for prairie conservation
- Educational partnerships formed by promoting prairie-related activities
- Visitors to prairie sites promoted by the PCAP

Strategies

I. Continue to educate Saskatchewan youth and teachers about prairie ecosystems and prairie species at risk.

actions 2012	deliverables	involved partners
<p>a. Finalize programming for the new action-orientated education program, <i>Taking Action For Prairie</i> and pilot 2 weeks of programming in the fall to 300-350 Grade 6-8 students and their teachers at 10-20 urban and rural schools in Regina, SK.</p> <p>Provide a pre-delivery teacher information session through a luncheon where teacher resources will be handed out and reviewed.</p>	<ul style="list-style-type: none"> ➤ Number of schools visited ➤ Number of students & teachers engaged through program ➤ Teacher / student evaluation/feedback ➤ Web Portal on SK PCAP website for action project updates 	<ul style="list-style-type: none"> - PCAP staff (lead) - Ducks Unlimited Canada - Nature Saskatchewan - Prairie Learning Centre - Royal Saskatchewan Museum - Saskatchewan Environmental Society - Saskatchewan Ministry of Education - Saskatchewan Watershed Authority

Status: In Progress

Explanation: Due to a staff change, programming was not finalized and the pilot did not occur. The plan for 2013 is to acquire funding to engage Regina Grade 6-8 students and teachers in the Fall 2013/Winter 2014 through 1) a pre-delivery teacher information luncheon session and 2) program delivery to students.

actions 2012	deliverables	involved partners
b. Develop new education program, <i>Adopt a Rancher</i> , which will connect south-west Grade 10 students (including First Nations students) with a local rancher to learn first-hand about the importance of native prairie stewardship, and the important role they can play in native prairie conservation.	<ul style="list-style-type: none"> ➤ Hire education consultant ➤ Develop student, teacher and rancher guides ➤ Contact potential ranchers 	<ul style="list-style-type: none"> - PCAP staff (lead) - Nature Conservancy of Canada - Nature Saskatchewan - Prairie Learning Centre - Provider Pals - Saskatchewan Ministry of Education - Saskatchewan Stock Growers Association - Treat 4 Student Success Program

Status: In Progress

Explanation: Funding applications have been submitted and a consultant call for tender has been sent out. The plan for 2013 is to develop programming and determine logistics for the Adopt a Rancher program for a pilot to run in Fall 2013.

II. Target communication about and promotion of native prairie to an urban audience.

actions 2012	deliverables	involved partners
<p>c. Coordinate Native Prairie Appreciation Week (NPAW) 2012, the third week in June dedicated to increasing awareness and appreciation of native prairie, in Saskatchewan residents.</p> <p>The SK PCAP office will focus on increasing awareness of NPAW, targeting urban residents and students, through News Releases, a promotional poster, and booths at local Farmer's Markets, garden centres and during National Aboriginal Day. Partner workshops and events will also be held in conjunction with NPAW.</p> <p>Plans for 2013 will also begin as next year will mark 15 years for NPAW.</p>	<ul style="list-style-type: none"> ➤ Number of News Releases distributed to media ➤ Number of promotional posters distributed ➤ Number of events attended with promotional booths ➤ Number of SK PCAP and partner materials distributed ➤ Identification of partners workshops and events held in conjunction 	<ul style="list-style-type: none"> - PCAP staff (lead) - Ducks Unlimited Canada - Meewasin Valley Authority - Nature Conservancy of Canada - Native Plant Society of Saskatchewan - Nature Saskatchewan - Parks Canada -Grasslands National Park - Prairie Learning Centre - Royal Saskatchewan Museum - Saskatchewan Watershed Authority - Society for Range Management – Prairie Parkland Chapter

Status: Completed

Explanation: Native Prairie Appreciation Week 2012 was promoted/celebrated through the following events: (1) Proclamation of NPAW 2012 provincially by the SK Ministries of Agriculture & Environment; (2) NPAW 2012 Poster promoting "*Wake Up & Smell the Prairies*" distributed to partners, city/town offices, museums, provincial/regional parks, tourist/visitor centers, and public libraries; (3) A list of 7 places to "Get Out and Enjoy the Prairies Checklist" during NPAW 2012 was distributed at Regina & Saskatoon Farmer's Markets and included on the web-site; (4) 420 native seed packets were distributed during National Aboriginal Day in addition to Regina & Saskatoon Farmer's Markets; and (5) the SRM Workshop & Tour was held out of Saskatoon

2013 will mark the 15th Anniversary of NPAW; plans will be to increase promotion of the week to urban residents and students through distribution of a promotional poster and list of activities and booths at Farmer's Markets and National Aboriginal Day.

III. Promote and provide opportunities to participate in prairie-related activities.

actions 2012	deliverables	involved partners
<p>d. Continue to update the SK PCAP website with current information for use by partners, technical delivery staff, urban/rural residents, teachers, students, consultants, etc.</p>	<ul style="list-style-type: none"> ➤ Number of visitors and hits to website ➤ Number of countries visiting the website ➤ Identification of traffic source ➤ Identification of the top five pages visited 	<ul style="list-style-type: none"> - PCAP staff (lead)
<p>Status: Completed</p> <p>Explanation: In 2012, there were 8,110 visits by 4,578 visitors from 78 countries, an increase of 108% from 2011; of the 8,110 visits, 35% were direct traffic, 48% through search engines and 17% by a referring site. The main pages visited in order of priority include Home Page, Native Prairie Restoration & Reclamation Workshop 2012, Upcoming Events & Workshops, Resources & Literature and State & Trends of Canadian Grasslands Workshop. In addition, there were 168 page views by 107 visitors to the Facebook page.</p>		
<p>e. Develop and distribute a monthly PCAP electronic newsletter to promote communication among Partners, affiliates, and other stakeholders/ organizations/individuals including partner and affiliate updates, research, upcoming events and prairie-related initiatives. Each issue to be posted on the SK PCAP website.</p>	<ul style="list-style-type: none"> ➤ Number of newsletters distributed ➤ Number of contacts receiving the newsletter 	<ul style="list-style-type: none"> - PCAP staff (lead)
<p>Status: Completed</p> <p>Explanation: Distributed 12 issues of the newsletter to over 500 contacts including SK PCAP partners, affiliates, associate organizations/individuals, producers, students and urban/rural residents.</p>		
<p>f. Deliver 6 luncheon presentations targeted towards technical delivery staff from October 2012 to March 2013, alternating between Saskatoon, Regina (potential restaurant setting) and Swift Current, SK.</p> <p>Deliver 6 presentations targeted towards urban/rural residents, producers, naturalists, hunters and First Nations youth held in conjunction with partner/associate events.</p>	<ul style="list-style-type: none"> ➤ Number of individuals in attendance ➤ Number of individuals viewing live webcast ➤ Number of individuals viewing archived presentations 	<ul style="list-style-type: none"> - PCAP staff (lead) - Federation of Saskatchewan Indian Nations - Friends of Wascana Marsh - Heritage Saskatchewan - Nature Saskatchewan - Friends of the Royal Saskatchewan Museum - Saskatchewan Ministry of Agriculture - Saskatchewan Stock Growers Association - Saskatchewan Wildlife Federation - University of Saskatchewan – College of Agriculture & Bioresources
<p>Status: In Progress</p> <p>Explanation: Delivered 11 presentations (6 technical and 5 public) from January to March and September to December, engaging 393 individuals in person, 39 watching the live webcast and approximately 121 views of the archived presentations.</p>		

Prospering with Prairie

Sustainable Land Use and Development

Objective 2009-2013

PCAP Partners identify, adopt, implement, and promote best management practices, planning processes, policies and/or regulatory requirements, important for the conservation and sustainable use of native prairie in Saskatchewan.

Measuring success 2009-2013

Native prairie – its extent, functions, and biodiversity – is conserved or restored as part of land use and development activities in Saskatchewan.

Strategies

I. Increase awareness of how Partners currently conserve and restore native prairie, and document progress in this area.

action 2012	deliverables	involved partners
a. Annually prepare and distribute a dynamic inventory of Partner programs, best management practices, planning processes, policies, and regulatory requirements that affect or influence the conservation and sustainable use of native prairie.	➤ 2012 inventory to SK PCAP Partners and interested stakeholders	<ul style="list-style-type: none"> - Agriculture and Agri-Food Canada (AAFC) – Agri-Environment Services Branch - Canadian Parks and Wilderness Society - Ducks Unlimited Canada - Environment Canada (EC) – Canadian Wildlife Service - Nature Conservancy of Canada - Nature Saskatchewan - Saskatchewan Ministry of Agriculture - Saskatchewan Ministry of Energy and Resources - Saskatchewan Ministry of Environment - SaskPower - Saskatchewan Watershed Authority

Status: In Progress

Explanation: The table was not sent out to partners early in the year as it has been determined that the data compiled in the table should be reviewed and analyzed as per sections (b) & (c). That said, yearly updates are required to maintain information currency and the table will be send out Dec 2012 or Jan 2013.

II. Exchange ideas and new knowledge with Partners and other stakeholders about ways to successfully conserve and restore native prairie at each stage of a land use or development activity.

actions 2012	deliverables	involved partners
b. Meet to discuss and identify strengths and weaknesses of programs, best management practices, planning processes, policies, and regulatory requirements that affect or influence the conservation and sustainable use of native prairie.	<ul style="list-style-type: none"> ➤ Minimum of two Prospering with Prairie Focus Group (PPFG) meetings ➤ A summary of 2012 discussions and suggested improvements (prepared by PPFG) 	<ul style="list-style-type: none"> - AAFC – Agri-Environment Services Branch - Canadian Parks and Wilderness Society - Ducks Unlimited Canada - EC – Canadian Wildlife Service - Nature Conservancy of Canada - Nature Saskatchewan - Redberry Lake Biosphere Reserve Association - Saskatchewan Ministry of Agriculture - Saskatchewan Ministry of Energy and Resources - Saskatchewan Ministry of Environment - SaskPower - Saskatchewan Watershed Authority

Status: Ongoing

Explanation: There was one Prospering with Prairie meeting held in 2012; however, two meetings are preferential. Discussion of the workplan was foremost with priority moving forward being on review of the table in action (a) so comments on programs, practices, etc. that affect conservation and sustainable use of native prairie can be made.

c. Disseminate information regarding new and innovative technologies, best management practices, planning process, policies and regulatory requirements to partner organizations through partner representatives and newsletters.	<ul style="list-style-type: none"> ➤ Prepare articles for inclusion in SK PCAP newsletter (1-4 articles) ➤ Feedback to Partner organizations ➤ Partners incorporate learning and new information into their activities on or with native prairie 	<ul style="list-style-type: none"> - AAFC - Agri-Environment Services Branch - Canadian Parks and Wilderness Society - Ducks Unlimited Canada - EC – Canadian Wildlife Service - Nature Saskatchewan - Saskatchewan Ministry of Agriculture - Saskatchewan Ministry of Energy and Resources - Saskatchewan Ministry of Environment - SaskPower - Saskatchewan Watershed Authority
---	---	---

Status: In Progress

Explanation: A comprehensive review of the data compiled in the inventory from action (a) is required to identify information for dissemination to partner organizations.

Caring for Prairie

Managing Invasive Alien Plant Species

Objective 2009-2013

Prairie land managers understand the importance of managing alien plant species on the prairie landscape and Saskatchewan has a coordinated approach to invasive alien plant species management.

Measuring success 2009-2013

- Target-audience knowledge of invasive alien plant issues
- Collaborative invasive alien plant management initiatives

Strategies

I. Educate public and private land managers about the threats of invasive alien plants to native prairie.

action 2012	deliverables	involved partners
a. Develop and promote educational activities and materials about invasive alien plants for use within existing PCAP education and information programs.	<ul style="list-style-type: none"> ➤ Number of activities developed and delivered ➤ Number of people reached 	<ul style="list-style-type: none"> - Nature Conservancy of Canada - Native Plant Society of Saskatchewan - Saskatchewan Ministry of Agriculture - The Saskatchewan Association of Rural Municipalities

Status: Ongoing

Explanation: The Native Plant Society (NPSS) has developed a “Grow Me Instead” wallet card to provide alternatives to invasive horticultural plants. They have also developed and delivered presentations on invasive species to horticulture groups (1-30 people), community groups (1-25 people) and schools (3-100 people), including SIAST in Prince Albert and PNWER in Saskatoon. The Saskatchewan Ministry of Agriculture was also involved with invasive species workshops this past summer. A number of additional organizations have developed and promoted educational activities and materials regarding invasive plants.

As part of an invasive species project that the Saskatchewan Forage Council was conducting, an invasive plant species ID guide and 5 factsheets looking at control of invasive species were developed and distributed.

<p>b. Co-deliver with the Prospering with Prairie Focus Group, a Native Prairie Restoration/Reclamation workshop targeted towards oil/gas & power/right of way representatives, technical delivery staff, consultants and government officials from the three Prairie Provinces with a focus on how to manage restored/reclaimed native prairie.</p>	<ul style="list-style-type: none"> ➤ Number of people in attendance at the workshop ➤ Number of materials distributed 	<ul style="list-style-type: none"> - PCAP staff (lead) - Nature Conservancy of Canada - Nature Saskatchewan - Native Plant Society of Saskatchewan - Parks Canada – Grasslands National Park - Saskatchewan Ministry of Environment - SaskPower - The Saskatchewan Association of Rural Municipalities
--	---	--

Status: Completed

Explanation: The 2012 Native Prairie Restoration/Reclamation workshop is complete and met with good success. 220 participants from AB, SK, MB, ON and the United States attended, representing government, environmental non-government organizations, oil & gas industry, producers and environmental consultants. Trade show and poster sessions were also part of this workshop for the first time. The Native Plant Society has added workshop materials to the restoration page on its website.

II. Implement collaborative Invasive Alien Plant Species prevention and control measures.

action 2012	deliverables	involved partners
<p>b. Support the Saskatchewan Invasive Species Council (SISC) by providing technical advice and technical support.</p>	<ul style="list-style-type: none"> ➤ Number of Partners involved in the Council 	<ul style="list-style-type: none"> - AAFC – Semiarid Prairie Agricultural Research Centre - Nature Conservancy of Canada - Native Plant Society of Saskatchewan - Prairie Adaptation Research Collaborative (UofR) - Saskatchewan Ministry of Agriculture - Saskatchewan Research Council

Status: Ongoing

Explanation: NPSS currently provides the Chair for SISC (Chet Neufeld) and also provides the mailing address for SISC. Partner organizations, such as the Saskatchewan Research Council, Saskatchewan Ministry of Agriculture and Nature Conservancy of Canada, continue to attend meetings and collaborate on invasive species issues.

<p>Participate in Saskatchewan Invasive Species Council planning and priority setting exercises.</p>	<ul style="list-style-type: none"> ➤ Number of SK PCAP Partners and other stakeholders participating ➤ Number of exercises underway 	<ul style="list-style-type: none"> - AAFC – Semiarid Prairie Agricultural Research Centre - Nature Conservancy of Canada - Native Plant Society of Saskatchewan - Saskatchewan Ministry of Agriculture - Saskatchewan Research Council
--	---	---

action 2012	deliverables	involved partners
<p>Status: Ongoing</p> <p>Explanation: The NPSS, through Chet Neufeld, is currently leading SISC in project and priority planning. Two major initiatives are underway with SISC: providing advice on potential invasive plant candidates to the SK Ministry of Agriculture with respect to the Weed Control Act, and developing province –relevant invasive species fact sheets. The Saskatchewan Research Council, Saskatchewan Ministry of Agriculture and Nature Conservancy of Canada have also been involved in this initiative through their attendance at meetings.</p>		

III. Monitor the occurrence of alien invasive plants in the Prairie Ecoregion.

action 2012	deliverables	involved partners
c. Begin development of a coordinated weed monitoring standard, procedure and program.	➤ Number of organizations participating in process	<ul style="list-style-type: none"> - Native Plant Society of Saskatchewan - Nature Conservancy of Canada - Saskatchewan Ministry of Agriculture - The Saskatchewan Association of Rural Municipalities
<p>Status: Not Started</p> <p>Explanation: However, the NPSS, through SISC, is promoting IMapInvasives as the new invasive species database for the province, administered by the Ministry of Environment. Also, there is talk about bringing an expert in from the U.S. to give an early detection, rapid response workshop to get the province started on a more coordinated weed monitoring effort.</p>		

Accounting for Prairie

Valuing Ecological Goods and Services

Objective 2009-2013

More people are aware of the ecological goods and services provided by native prairie ecosystems and begin to account for them in decision making.

Measuring success 2009-2013

- Target-group awareness of native prairie ecological goods and services [EGS] and threats to them
- EGS-based programs that support prairie conservation
- Acres of prairie influenced by EGS-based programs

Strategies

I. Communicate to target groups about the ecological goods and services provided by native prairie.

actions 2012	deliverables	involved partners
a. Identify examples of people valuing EGS in Saskatchewan for use in marketing and educational materials.	➤ Distribution of marketing and educational materials	- Ducks Unlimited Canada - Prairie Trust - Saskatchewan Watershed Authority - Saskatchewan Wildlife Federation
<p>Status: Ongoing</p> <p>Explanation: Work is ongoing. Several examples have been identified and promoted in SK. This group has joined the multi-stakeholder Saskatchewan EGS Working Group. An EGS Fact Sheet/Brochure was developed and distributed along with a press release for NPAW about EGS.</p>		
b. Produce an annual report on the state of Saskatchewan's natural capital and the threats to it, including habitats important to Species at Risk. This will be based in part on the findings of the Prospering with Prairie Focus Group.	➤ Distribution of report	- Canadian Parks and Wilderness Society - Ducks Unlimited Canada - Saskatchewan Forage Council - Saskatchewan Ministry of Agriculture
<p>Status: Ongoing</p> <p>Explanation: Work is ongoing but on hold pending results from Prospering with Prairie's assessment of remaining habitats. They have assisted the focus group in Native Prairie assessment work.</p>		

actions 2012	deliverables	involved partners
c. Develop and distribute educational materials/programs about EGS targeted towards students, educational institutions, government, industry, special interest groups, urban/rural residents, RM's/SARM/ SUMA, and planners. Materials will also highlight EGS in relation to Species at Risk habitats. These efforts will utilize existing Partner marketing and education programs where feasible.	<ul style="list-style-type: none"> ➤ Distribution of materials to target groups ➤ Produce at least one article in the SK PCAP newsletter annually ➤ Develop a fact sheet for the SK PCAP website 	<ul style="list-style-type: none"> - Ducks Unlimited Canada - Prairie Trust

Status: Ongoing

Explanation: Initial discussions were had with the At Home on the Prairie Focus group to include EGS materials in potential new education program. An EGS fact sheet was developed and distributed; in addition to an EGS article that was produced for the PCAP newsletter. EGS materials were also circulated internally within PCAP's membership.

II. Identify and communicate to Partners the program and policy options that support the consideration and maintenance of ecological goods and services.

actions 2012	deliverables	involved partners
d. Collaborate with Prospering with Prairie Focus Group to review programs, policies and legislation to identify those that place natural capital and ecological goods and services at risk.	<ul style="list-style-type: none"> ➤ Completion of reviews 	<ul style="list-style-type: none"> - Canadian Parks and Wilderness Society - Ducks Unlimited Canada - Nature Conservancy of Canada - Saskatchewan Ministry of Agriculture - Saskatchewan Wildlife Federation

Status: Ongoing

Explanation: Attended several Prospering with Prairie Focus Group meetings to determine the best method of facilitating discussions revolving around programs, policies and legislation.

A Working Prairie

Grazing Management in Prairie Ecosystems

Objective 2009-2013

Increased land manager knowledge and adoption of grazing management practices that benefit both prairie ecosystems and economic returns, improved understanding of current range health and range health trends in Saskatchewan, and improved scientific understanding of the role of grazing management in prairie ecosystem health and biodiversity.

Measuring success 2009-2013

- Public and private land manager knowledge of best grazing management practices and their benefits
- Coverage and frequency of range health monitoring
- New knowledge of relationship between grazing management and prairie ecosystems

Strategies

I. Communicate with public and private grazing land managers about grazing management practices and their benefits.

actions 2012	deliverables	involved partners
a. Assist in planning the 2012 Society for Range Management – Prairie Parkland Chapter’s Workshop & Tour held out of Saskatoon, SK, in conjunction with Native Prairie Appreciation Week 2012.	➤ Workshop attendance	<ul style="list-style-type: none"> - Society for Range Management - Prairie Parkland Chapter (lead) - AAFC – Agri-Environment Services Branch - Ducks Unlimited Canada - Nature Saskatchewan - PCAP - Saskatchewan Ministry of Agriculture - Saskatchewan Watershed Authority

Status: Completed

Explanation: A one-day tour was held on June 21, 2012 with 50 people in attendance. The event started with an optional half-day on Wednesday, June 20 and included a technical tour to Kernen Prairie and the North-East Swale with discussions on the importance of burning and grazing to biodiversity and the use of sheep in vegetation management. The full-day tour was based out of Saskatoon. The first stop was at Meewasin’s Beaver Creek where stream-side restoration and pasture re-seeding projects could be observed. Lunch was enjoyed in the shade of the Rudy Rosedale Community Pasture Headquarters. Rain did not stop us in the afternoon during our plant identification and species at risk search. Allen Patkau welcomed the tour on his ranch where watering systems and grazing management could be investigated. The day concluded at the Hanley Community Hall with a delicious local supper. The workshop in 2013 will be held in the Big Muddy area in partnership with the Saskatchewan Pasture School.

actions 2012	deliverables	involved partners
b. Provide information on the negative ecological impacts on feeding tame hay or green feed on native pasture.	<ul style="list-style-type: none"> ➤ Newsletter Article ➤ Topic as part of a field tour 	<ul style="list-style-type: none"> - Saskatchewan Watershed Authority (lead) - AAFC – Agri-Environment Services Branch - Provincial Council of ADD Boards - Saskatchewan Ministry of Agriculture

Status: Not Started

Explanation: Time constraints prevented this action from being realized.

II. Facilitate integrated approaches to program and policy development related to grazing management.

actions 2012	deliverables	involved partners
c. Review existing educational material available to determine if there is a need to create a new learning experience.	<ul style="list-style-type: none"> ➤ Working group established among Partners 	<ul style="list-style-type: none"> - Ducks Unlimited Canada (lead) - Saskatchewan Forage Council (lead) - AAFC – Agri-Environment Services Branch - Saskatchewan Ministry of Environment - Society of Range Management – Prairie Parkland Chapter - Saskatchewan Watershed Authority

Status: Ongoing

Explanation: A working group has not been established; however individual partners have been addressing this deliverable. *Management of Canadian Prairie Rangeland* has been printed for a second time and is currently available to anyone interested in obtaining a copy. In 2012, the Saskatchewan Forage Council (SFC) distributed publications such as *Managing Saskatchewan Rangeland*, factsheets on grazing management and other forage related topics as well as Plant ID guides. Distribution of SFC's informational materials is carried out through SFC participation in industry and producer events, provision of materials to all SFC partners as well as direct request from their website.

In 2012, SFC began a project entitled *Development of a Forage Network*. This initiative will work on building capacity in the forage industry, directing policy related to forage and rangeland and bringing stakeholders together to discuss and act on common goals.

III. Improve range health aggregated data storage and sharing.

actions 2012	deliverables	involved partners
d. Train agency staff and encourage use of the standardized database for health assessment data	<ul style="list-style-type: none"> ➤ 2 training workshops on how to use the database 	<ul style="list-style-type: none"> - Saskatchewan Research Council (lead) - Saskatchewan Watershed Authority (lead) - AAFC – Agri-Environment Services Branch - Ducks Unlimited Canada - Nature Conservancy of Canada - Saskatchewan Ministry of Agriculture - Saskatchewan Ministry of Environment

Status: Completed

Explanation: Two workshops were held in March to train partners and other associates on how to use the database; 21 participants attended the workshops.

- | | | | |
|----|--|--------------------------------------|---------------------|
| e. | Health Assessment database is complete and operational | ➤ Database posted on SK PCAP website | - PCAP staff (lead) |
|----|--|--------------------------------------|---------------------|

Status: Completed

Explanation: Videos from the workshop are posted on the web-site including an introduction to the project, core parts of the program and how to enter data.

IV. Coordinate comprehensive and standardized range health data collection.

actions 2012	deliverables	involved partners
f.	Promote buy-in from all Partners to use a standardized system for rangeland assessment and data storing, supported by the managers and field staff from each SK PCAP Partner agency.	➤ Letters to each Partner to promote this action - AAFC – Agri-Environment Services Branch - Ducks Unlimited Canada - Nature Conservancy of Canada - Saskatchewan Research Council - Saskatchewan Watershed Authority - University of Saskatchewan – College of Agriculture & Bioresources

Status: Ongoing

Explanation: Rather than sending a letter, personal phone calls to partners are currently being conducted.

g.	Conduct training sessions for SK PCAP partner agency staff on the eco-site description guide.	➤ One video conference	- Saskatchewan Research Council (lead) - AAFC – Agri-Environment Services Branch - Ducks Unlimited Canada - Nature Conservancy of Canada - Saskatchewan Ministry of Agriculture - Saskatchewan Watershed Authority - University of Saskatchewan – College of Agriculture & Bioresources
----	---	------------------------	---

Status: Not Started

Explanation: Time constraints prevented this action from being realized.

V. Improve our knowledge of relationships between grazing management and wildlife populations.

actions 2012	deliverables	involved partners
h. Hold a forum for Partners and other agencies to discuss biodiversity issues, focusing on species at risk, and exchange information between research scientists and grazing managers.	➤ Attendance at workshop/ forum	<ul style="list-style-type: none"> - Parks Canada - Grasslands National Park (lead) - AAFC – Agri-Environment Services Branch - EC – Canadian Wildlife Service - Saskatchewan Ministry of Agriculture - Saskatchewan Watershed Authority

Status: Not Started

Explanation: Time constraints prevented this action from being realized.
