

10th Native Prairie Restoration/Reclamation Workshop

Canadian Prairies
**PRESCRIBED
FIRE EXCHANGE**

Pre-Workshop Event: Planning a Prairie Prescribed Fire

Tuesday, February 6, 2024

Time: 1:00pm-5:00pm

Location: Saskatoon Inn, Saskatoon, SK

Prescribed fire is a dynamic and essential tool in prairie management and restoration. Join us for a workshop tailored for both seasoned practitioners and beginners eager to explore the benefits of prescribed fire and the stages of planning. This event is a pathway to understanding the kinds of questions a fire practitioner needs to be asking, how to manage risk, and what are the steps involved with planning and conducting a prescribed fire in grassland ecosystems.
