Native Prairie Speaker Series Webinar

Speaker: Emily Putz, Habitat Stewardship Coordinator, Nature Saskatchewan

About the Speaker:

Emily Putz has worked for Nature Saskatchewan since 2014, being hired full time in 2016 as a coordinator for Nature Saskatchewan's species-at-risk programing. Over her years with the organization she has spent time coordinating Rare Plant Rescue & Operation Burrowing Owl, until finding her permanent role as the Habitat Stewardship Coordinator for Shrubs for Shrikes, Plovers on Shore & the Stewards of Saskatchewan Banner Program. When not working she enjoys time on her small hobby farm with her fiance Evan and their dogs, cats, horses, ducks, geese and sheep!

About this Webinar:

Everything you need to know about this fascinating iconic prairie bird species-at-risk! Presentation will include range, lifecycle, how to ID and distinguish from look-alikes, habitat needs, threats, and what you can do to help.

PCAP's Native Prairie Speaker Series is a monthly webinar about prairie conservation or species at risk.

Hosted by: Caitlin Mroz-Sailer, Stewardship Coordinator, Saskatchewan Prairie Conservation Action Plan

We respectfully acknowledge that we are on the traditional territories of many Indigenous Nations and communities, past and present. For a millennia, they have worked to protect these landscapes and the life these areas sustain. I would like to thank these original caretakers, and acknowledge the ongoing work and presence of Indigenous Peoples in Canada today.
