## **Presentation Summary:**

Strategically integrated prairies in row crop fields can provide disproportionate benefits to farms and wildlife. STRIPS (Science-based Trials of Row crops Integrated with Prairie Strips) Project Coordinator, Omar de Kok-Mercado, and Farmer Liaison, Tim Youngquist, will share an overview of the STRIPS project at Iowa State University.

## **About the Presenters:**

### About Omar:

Omar coordinates the STRIPS Team at Iowa State University and most recently lead the team in the development of the USDA Conservation Reserve Program prairie strips policy (CP-43)

### About Tim:

Tim is the farmer liaison for the STRIPS Team at Iowa State University and works directly with farmers and landowners to design, implement, and manage prairie strips
