

We are so happy our Prairie's Got the Goods Week and Native Prairie Speaker Series webinars attract such enthusiastic and engaged audiences. We try to reserve 5-10 minutes for questions at the end of each webinar, but to be respectful of the speaker's time and the audience's time, we simply can't address them all. The moderator works to quickly select the most relevant questions for the speaker, aiming to be as fair as possible.

To be as transparent as possible, questions are selected based on the following:

- Relevant and related to the presentation
- Number of upvotes

Due to the sheer volume of questions, some may be skipped if they:

- Were already addressed during the presentation by the speaker
 - Were answered by other attendees (we often have other experts online!)
 - Are easily found through a quick online search
 - Are beyond the scope of the presentation
-
- Questions may not be asked chronologically. Some questions submitted early in the webinar may be answered later during the presentation. For the sake of time, we may skip it.
 - If you have a question you would still like answered, please contact us (email) and we can forward it on to the speaker. (For example, detailed project or research questions).
 - People are welcome to re-watch the webinar on our YouTube Channel(link) at anytime. We try our best to get it posted within 24 hours.

Thank you!

The Saskatchewan Prairie Conservation Action Plan Team
